

Designing Snowflakes

Directions

Supplies:

white paper

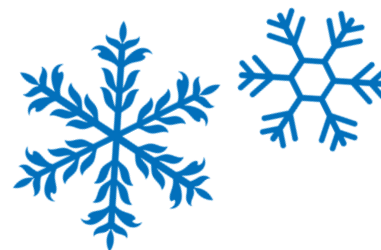

scissors

Steps:

1. Fold the paper in half diagonally to make a triangle.
2. Now, fold the triangle in half so the pointy corners meet.
3. Fold your triangle in thirds. You may need to adjust these folds a little to get the sides to match up, so don't crease the paper until the folds are just right. Cut across the bottom of your paper so it is straight.
4. Cut your folded paper so it looks like the triangle in image 5. Then make a variety of small triangular snips in the folded paper without cutting entirely through the folded paper.
5. Then unfold it gently and enjoy your masterpiece!
